Dates to remember:

DANWA General Meeting— Calvary Christian Church in the annex just north of the church, 3900 Epperly Dr. at 7:00 pm, second Monday of the month.

The Patrol Meeting will follow the General Membership meeting at the Calvary Christian Church annex.

CERT General Training Meeting, at 7:00 pm, Del City Community Center, second Tuesday of the month.

Del Aire Defender

DEL AIRE NEIGHBORHOOD
 WATCH ASSOCIATION

AUGUST 2021

From the DANWA President:

Greetings Friends and Neighbors,

Yes I'm writing this out on notebook paper—my computer crashed.

Joe said he was not going to try to decipher my hieroglyphics. There's no spell check, and I get writers cramps easily. So here we go—The short version.

School starts August 11th—full time in class instructions, virtual instruction is a choice and masks are NOT required. Watch school zones—slow down.

Senior only swim at the Del City Public Pool is from 11 am to noon, Monday through Friday. \$3.00 per person—per session.

At our August 9th DANWA general meeting, we will feature our melon feast. Come and enjoy? See you then.

May God bless and keep you and yours

Ron McCall DANWA President (405) 677-7923
danwapres@cox.net

I want to publicly and personally thank the lady who has picked up trash alongside Vickie Dr. during her daily walk. If more people would take pride in doing meaningful duties such as that, Del City would become more proud of its residences. So **“THANK YOU MA'AM”** you are certainly appreciated!!

Joe Satterwhite, Editor Del Aire Defender

Total Arrests = 184

We could use YOUR HELP!!!

Need block captains for:

Angela Dr. From Angela Circle to Del View (15)

All of Angela Cir. (6)

Angela from Oakbrook to Angela Circle (23)

Contact David Ellison 405-672-7904

If you can spare some time, we can use block captains to help deliver the DANWA newsletter. Some blocks only have 20 homes to deliver to, most are less than 25 homes. If you can help with any of these please contact any of the District Captains above. It takes me about 15 minutes to deliver 23 and I get a little exercise,.

You don't have to be a member to volunteer to deliver the newsletters.

Update on the library, it is up and running and a very nice looking facility, go by and check it out when you can, I think you will be amazed.

Next item is the old library building, that will become a senior center but will also be a place for youth to gather.

Eagle Lake is a nice place to relax and fish, just be sure and pay your dues.

Ladies and gentlemen,

I know it is mostly inconvenient to come to a meeting once a month but to be a member of the Del Aire Neighborhood Watch Association can sometimes be rather interesting.

There are times when we have guests who come and only see 20 people out of 300 plus and wonder are they really interested in what goes on at the neighborhood watch meeting.

We have had and will continue to have a Legislator, Mayor, City Manager, Planning Commission spokesman, storm water/waste management professional, Fire Chief, Police, Animal Control Officer (for your animal questions) **you name it we have your interest in mind if you only let us know.**

Then there are the **Ice cream social (last month), Melon (this month)** eating competition (oh, just good food) snacks monthly with coffee and water provided. Come on out and join us and meet your neighbors.

Many times there is information known ahead of time that might be of interest and helpful to you.

Respectfully, Joe Satterwhite, Editor

OLD GLORY

I am reminded that there are American Flags that need to
be properly disposed of, not just throw them in the trash
but ceremonially and in a dignified fashion of respect.

United States Flag Code (4 USC Sec 8 Para (k) amended 7 July 1976 states: "The Flag, when it is in such condition that it is no longer a fitting emblem of display, should be destroyed in a dignified way, preferably by burning." Don't throw it in the trash or just burn it like you see protestors doing in the street, but destroyed in a dignified way. The easiest way is to donate it to the American Legion, Veterans of Foreign Wars, Boy Scouts, or the Girl Scouts. Another way is to fold it properly, place it in a dignified box and bury it, saying a few words if you wish or even saying the Pledge of Allegiance. Finally, if you prefer, please bring it to the DANWA general meeting and give it to Joe Satterwhite or Rex Warlick and we will make sure they are taken care of properly. Thank you and God Bless America.

Neighbor's remind the people who mow your lawns to NOT BLOW THE GRASS CLIPPINGS IN THE STREET. Think about this for one second—it makes your area and your neighbor's area look like crap with grass in the street, it's not courteous to your neighbor, it's your grass, keep it, that is to say have the lawn care people blow it back in your yard and it will return some nutrients to your lawn, especially if you fertilize.

Last as outlined below:

Stormwater Pollution Prevention:

Grass Clippings Do not blow leaves and grass into the storm drains or ditches—Dumping leaves and grass clippings into the stormwater system affects streams. The increase in nutrients associated with grass clippings can cause algae growth, which can kill fish and other aquatic life. Keep this grass waste out of storm drains.

Try the following:

1. **RETURN TO LAWN**—it is best to leave grass clippings uncollected on the lawn so that they are recycled, contributing to soil organic matter and supplying part of the fertilizer needs of the lawn. Adopt a mowing schedule to keep clippings short enough to filter through growing grass and not remain as a mat on top of the lawn. Research and experience indicate that only 1/3 of the grass length should be removed during mowing. Never allow the lawn grass to double its height between mowing. This approach not only eliminates clipping collection and disposal problems, but also can contribute to improvement of the lawn. Clippings are not a cause of thatch in lawns. Instead, thatch is formed primarily from a dense accumulation of grass roots and stemmy material. Returning clippings along with the proper mowing frequency will not increase disease problems. Use caution when removing collection bags from mowers. Some machines are not designed to operate safely without a bag or other attachment in place.. Check with your equipment supplier if you are unsure if your mower can operate without a collection bag.
2. **GARDEN MULCH**—Grass clippings can be used as garden mulch. To reduce any tendency to protect slugs, clip pings can be dried in the sun and a day prior to being used in this way. Clippings can be spread on garden soil to check weed growth, reduce soil spattering and crusting, moderate soil temperatures, etc. As a precaution, do not use grass clippings from herbicide-treated lawns until after two grass cuttings have been made.
3. **SOIL INCORPORATION**— clippings can serve as a source of organic matter for soil improvement when incorporated into the garden.
4. **BACKYARD COMPOSTING**—grass clippings can be composted, especially when used in a backyard leaf composting pile. However, grass has high nitrogen content, a much higher demand for oxygen than leaves, and a tendency to mat, which reduces the passage of oxygen. Composting piles containing grass clippings can become anaerobic. This, in turn, can produce strong, unpleasant odors. These odors are particularly noticeable when the pile is disturbed. Because of these problems, grass clippings should not be composted alone, but rather mixed with composting leaves. One must be aware, odors, and reduce the rate of decomposition. The objective is to keep the material aerobic. Also, ensure that excess nitrogen is not given off as ammonia, do not add more than 1 part fresh grass clippings to 3 parts partially composted leaves. The resulting compost can be used as soil amendment, as mulch for gardens, flower and shrub beds, or as a potting medium.
